Gepardissima Ornament Design is a Proudly South African luxury jewellery design company creating custom-made necklaces, earrings and bracelets.

Gepardissima's style is an eclectic and sophisticated cross-over of classic European taste intertwined with the vibrant style of "Egoli" - Johannesburg, the city of gold. With precious stones, corals, shells, pearls and other

carefully selected elegant materials like lava stones, Murano glass or Swarovski crystal elements, each piece is refreshingly different. Precious gems like diamonds, tanzanite and rubies can be used in bespoke pieces.

The various creation lines are specially named according to their components and colours, such as "LadyLeopard" or "EternalEgoli" or "TourquoiseBourgoise". Every piece is hand made, unique and will never be repeated. A Gepardissima piece is for the bold, sophisticated and confident woman.

In honour of Women's Month, *Prestige* and *Gepardissima* are giving away a "TourquoiseBourgoise" bracelet valued at R4500 to the 10th new subscriber in August.
